which, if not quickly fully answered, will not leave enough of Hendricks for a stigma to be fastened to. They relate to the Indianapolis waterworks Ring, which began operations by placing \$250,000 of their stock 'where it would do the most good,' under which gratuitous distribution \$35,000 of it fell to the share of Governor Hendricks. Hendricks, as a was a member, at 70 cents-all which was done. He also, as Director, voted \$10,000 to himself and each of the other ring Directors for their valuable services in guaranteeing payment of interest on the bonds. Altogether, it reads very like a chapter out of Erie, and Hendricks' part that Gould occasionally risks his own money, while Hendricks did not risk a penny. According to the eternal fitness of things, Hendricks should be the Tammany ring's candidate for the Presidency.'

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the cormptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ager's Pills, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar conting makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.
